Our Sod Line-up

St. Augustine (Raleigh)

Cold hardy
Medium green color
Shade tolerant

Bermuda (419)

Native to Africa. Has excellent wear, drought, and salt tolerance. It is used primarily on golf courses, athletic fields, tennis courts, and bowling greens. It becomes dormant (turns brown) in cold weather and is commonly over seeded with ryegrass to maintain green winter color. Bermuda grass grows and spreads rapidly.

Zoysia (Emerald)

Fine textured
Slow to spread, but aggressively crowds out weeds & other grass
Grows in full sun, Cold tolerant

Zoysia (Palisades)

Palisades is a medium textured, high density turf suitable for home lawns, golf fairways and roughs, sports fields, industrial parks, and highway medians.

Palisades is a medium to coarse textured turf noted for its shade tolerance and low water use requirements.

St. Augustine (Palmetto)

Densely spreading variety, aggressive growth
Rich, dark green color
Performs well in sun & shade
Cold tolerant
